## **GENERAL INFORMATION**

.223 Rem ammunition produced in the company AB Giraitės ginkluotės gamykla (GGG). Ammunition is designed for hunting and target shooting. This ammunition produced in accordance with C.I.P (Permanent International Commission for the Proof of Small-arms), ISO 9001:2015 (Quality Management Systems Requirements), ISO 2859-1 (Sampling Procedures and for Inspection by Attributes Part 1: Sampling Plans indexed by Acceptable Quality Level (AQL) for lot-by-lot inspection), ISO 3951 (Sampling Procedures and Charts for Inspection by Variables for Percent Defective) requirements. Ammunition is designed for shooting .223 Rem caliber weapons. It is designed for short-term storage and not to used either in or under the extreme climatic conditions.

### TECHNICAL SPECIFICATIONS

# 1. Table. Technical specifications

| Caliber                  |      | .223 Rem                    |  |  |
|--------------------------|------|-----------------------------|--|--|
| Normal description       |      | GPR14                       |  |  |

### MARKING

Minimum marking of cartridge and it's packaging is done in accordance with C.I.P. 3. TESTING OF AMMUNITION requirements:

- Stamped on the base of cartridge case:
- Manufacturer's initials
- Caliber
- Stenciled on the internal carton box:
- Manufacturer's logo and name
- Quantity of cartridges in the box
- Weight of bullet
- Caliber
- Type of bullet
- Lot number
- CIP Mark
- Bullet velocity, bullet path and energy at 0, 100, 200, 300, 400 and 500 m from barrel mouth. Initial bullet velocity at barrel mouth, recalculated from V<sub>24</sub> m/s velocity.
- Ballistic coefficient
- Warnings related to the exploitation and health safety.
- Barcode
- Address of manufacture
- Recycle marks of package
- Manufacturer's logo and name - Stenciled on the external box:
  - Caliber and design
  - Quantity of inner carton boxes in the outer carton box
  - Quantity of cartridges in the inner carton box
  - Quantity of cartridges in the outer carton box
  - Safety information
  - Lot number
  - Weight of bullet
  - Type of bullet
  - Net weight
  - Net explosive quantity
  - Gross weight
  - Volume
  - Certification number of the outer box
  - Proper shipping name
  - Explosive hazard orange mark
  - Recycle marks of package
  - Address of manufacturer
  - UN number
  - Serial number label of box

# **PACKAGING**

Cartridges supplied in either outer carton or metal M2A1 boxes which are palletized. The boxes and pallets should be marked according to the requirements of the customer.
